The present questionnaire aims at collecting data from Non-Governmental Organisations (NGOs) on their knowledge and experience in the implementation and attainment of the goals set by the Political Declaration and Action Plans adopted by the 20th United Nations General Assembly Special Session (UNGASS) in 1998.

This questionnaire compares the drug-related situation at the time of the UNGASS (1998) with the situation 8 years later (2006).

If your organisation DID NOT EXIST in 1998, please only provide data for 2006.

If your organisation DID EXIST in 1998, where you are asked to give information for 1998 and 2006, please try to provide it. If you do not have the 1998 information, please give data for 2006.

Thank you for taking the time to complete this questionnaire and helping us to compile the most comprehensive data to date on NGO activity in the drugs field.

In 1998 the United Nations General Assembly met in a Special Session (UNGASS) to address the world drug problem. The Session ended with the adoption of a Political Declaration committing approximately 150 States to achieving, by the year 2008, significant and measurable results in the reduction and supply of and the demand for substances controlled under the international drug control conventions.

Since 1998 the United Nations Office on Drugs and Crime (UNODC) has been collecting data from governments on a biennial basis through the Biennial Reporting Questionnaire (BRQ) with the aim of reporting on progress made in the implementation of the action plans and measures adopted by the UNGASS in 1998. The data will be presented at the 1998-2008 UNGASS review, in either 2008 or 2009.

The Vienna NGO Committee on Narcotic Drugs, dedicated to providing a link between the NGO community, UNODC and the Commission on Narcotic Drugs (CND), has for the first time prepared this questionnaire based on the BRQ for governments. The questionnaire is aimed specifically at the NGO community so that their contributions and concerns may be presented at the 1998 – 2008 UNGASS Review.

To this end, we would be most grateful if you would complete the questionnaire as fully and accurately as possible.

Thank you for your invaluable collaboration.

Thank you for completing this questionnaire. The data you have provided will be analysed and a report will be prepared for submission to the UN Commission on Narcotic Drugs and the United Nations Office on Drugs and Crime.

The draft report will be published on the web site of the Vienna NGO Committee on Narcotic Drugs (www.vngoc.org). There will be a short period for organisations which provided data to review the draft report and to correct factual errors. A definitive report will then be prepared.

The final report will be submitted as one of the contributions of the NGO community to the 1998 – 2008 UNGASS Review.
